Game Board

**Learning Math Concepts
Through Play**

Math Games Teacher Guide

Math Games are engaging and enjoyable ways for children to explore math and master basic math facts. Math Games offer fun, hands on ways to practice reading 2 digit numbers in a setting that allows children to transfer skills they learn in class! *Leyendo Números de 2 Dígitos* will help your students practice and reinforce their ability to read 2 digit numbers through play.

Package Contents:

This package consists of:

- Game Cards
- Game Card Backing
- Game Board
- “Write The Number” Game Sheet

We also have included:

- 2 blacklines to be used as seat work in class or sent home as homework.

All the above mentioned are reproducible.

Easy Assembly:

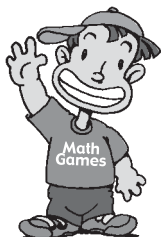

Assembly is easy!

Simply copy the game board onto ledger size (11x17) paper. Glue it into a file folder or onto tag board for easy storage. Make copies of the game cards on colored paper or card stock. Back the cards with the card backing design provided. Cut the game cards.

Copy the worksheets for homework and you are ready to go.

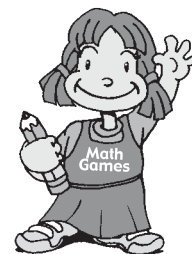

Use colored file folders to color code your Math Games according to the math concept (Multiplication–red, Measurement–blue, Geometry–yellow).

Keep the cards in a plastic baggie and store it all together in a file folder or large manila envelope for easy storage.

Watch Test Scores Soar Through Play

Math Games offer a hands on, developmentally appropriate way to increase competency, comprehension and retention of the lessons you are teaching in class. Math Games are a perfect way to supplement your math lessons. Use Math Games whole class or at a Math Game center and watch your test scores soar.
