

Pocket Folder Practice

Short Vowels

A Special Message

Dear Parent/Teacher:
 This All-in-One Pocket Folder Practice book has been designed especially for Preschool - First Grade children and children who need reinforcement with basic skills. Our company name says it all - Practice & LearnRight! We are dedicated to providing useful materials for both parents and classroom teachers. Here are some helpful hints to get the most out of this Short Vowel Pocket Folder Practice book:

The practice pages provide practice writing the vowels and identifying short vowels. This book is filled with practice of short vowels, writing practice and beginning following directions. As a bonus, every page allows space for the child to practice writing their name. At first you may want to write their name for them, so they can trace it, and later on just write their name with a dotted line for them to follow, until they have learned to write their name correctly.

Before the child begins writing, it might be helpful to have the child trace each word several times using their finger.

To extend the life of this book, lay a piece of white paper over the page and let the child trace each word.

To involve the child into discussion, talk about the pictures they are coloring and the words they are writing.

THE SHORT VOWEL GAMEBOARD- Under the Sea

For a long lasting game, feel free to mount the gameboard and playing card on tag board or poster board and laminate. Be sure and color the gameboard and cards before laminating.

The Short Vowels game continues the reinforcement of recognition of letters and short vowel sounds, by matching the short vowel sounds of the picture to the correct letters on the gameboard. The game is loads of fun and can be played with 1-4 players!
